

WEBT@LKER 301

USB VoIP GATEWAY

Connect your existing PSTN telephone to the Webt@lker 301 USB VoIP gateway and it will immediately become your new Skype phone. Talk to your Skype contacts, make Skype In and Skype Out internet calls, and continue to make and receive traditional phone calls all in the same device. Furthermore, you can also forward your incoming Skype calls to another number (e.g. mobile phone)(*) and continue to be Skype reachable while you are out from home.

- USB connection
 - 2 RJ11 connectors, one for PSTN telephone line, and one for PSTN telephone
 - Skype in and Skype out compatible
 - Dial using the phone keypads
 - Auto-detection and auto-switch to VoIP or PSTN calls
 - Phone rings for all incoming VoIP and PSTN calls
 - Skype call forwarding to any phone or mobile phone (*)
- (*) Local operator fees apply
